Pertinent Paragraphs

Democratic ballyhoo artists are asking what became of all the sugar Hoover saved for the hungry members of the A. E. F. in the late unpleasantness? Whether they childishly believe that he ate it all himself or meant to infer that he otherwise disposed of it is not known, but making a few inquiries of ex-soldiers these professional howlers could very easily have had an answer to this question. The much mooted sugar got to France, just as far as the wharves upon which it was unloaded. There it remained, retreating at the close of the war, heavy with moisture and service stripes. Mr. Hoover got it across the pond all right, but from ship to men was a far cry—the job of the war department—under a Democratic chief of the American army.

In order that citizens may exercise their right of franchise in the coming election it is necessary that they first register. The last day of grace is at hand. Those who fail to express a preference may not consistently criticize the next administration, be it Republican or Democratic.

In his speech of acceptance Gov. Smith said: "The Democratic party does not, and under my leadership will not, attempt any sudden or drastic revolution in our economic system which would cause business upheaval or popular distress." Perhaps not, but in our opinion, the election of Al. Smith will start the ball rolling toward the end that Europeans be permitted to enter this country in unlimited numbers. While this condition would not necessarily mean the "upheaval of business," picture, if you can, the "popular distress" of the American workingman, who already has sufficient competition in the labor market.

Gene Tunney, formerly a prominent American six-day bicycle rider, and Miss Polly Lauder, heiress, were married in Italy this week. Two ceremonies and a civil ceremony lasting 20 minutes were required to complete the marriage grind. Mr. Tunney's former profession stood him in good stead, as none but a man of endurance could have gone through the ordeal successfully.

Regarding prohibition, Senator Joe Robinson holds that the "public may reasonably anticipate more just and uniform enforcement" under Smith than under Herbert Hoover. It is universally known that Smith, as governor of New York, has made absolutely no attempt at enforcement of the dry laws, so we might rise to remark: "what enforcement of what dry law?"

Bogus "generals" in China have a scheme by which they raise men and money. A free lance descends upon a community, informs the populace they are about to be attacked by General So-and-so and demand men and money for the purpose of defense. Exit. This would be a great graft for Chicago racketeers.

A Missouri editor recently committed suicide, leaving no note giving a reason for his act. Doubtless it was because of his inability to please all of the people all of the time.

LOCAL CLUB HEARS FINE TRAVELOGUE

The Country Woman's Club had a most enjoyable afternoon Monday, when they were entertained by Miss Kittie Johnson and Mrs. N. E. Purmort, who recounted their summer's travels.

Miss Johnson took her audience on a most delightful tour of Europe, leaving New York on the Swedish-American liner, Stockholm, which proved a very desirable boat. The first part of her trip was an independent one through Sweden, the birthplace of her mother, and whose home she visited. One of the unusual experiences was the days spent in Lapland during the time of the midnight sun. A steamer trip down the coast of Norway was another highlight of the many delightful events.

The itinerary included Denmark, a journey by hydroplane and land plane to Berlin, visits to several other places in Germany and then to Paris, where the large party was gathered on the way to the International Art Congress at Prague.

After the convention the party was divided into three groups, the one of which she was a member journeying through Czechoslovakia on to the Black Sea, down to Constantinople and Athens, across the Mediterranean to southern France, back to Paris and home.

Some beautiful souvenirs of lace, weaving, and jewelry added greatly to the pleasure of the recital.

Mrs. Purmort's tour was a "see America first" motor trip, and was equally interesting.

She gave some interesting facts regarding the construction of the wonderful pipe organ in the Mormon Tabernacle in Salt Lake City, and concerning the life of Brigham Young.

Another different bit was the visit to the little Wisconsin village on the Brule river, which was the summer home of the President's family.

Descriptions of places and buildings in and about Washington D. C. were enjoyed, as some of them were quite new to most of those present.

Other features of the program that were much appreciated were two piano duets, "Hungarian Dances" by Brahms, played by Mrs. F. V. Parrott and Mrs. G. S. Robson, and two solos, by Mrs. H. M. Shadle, "Good-bye to the Leaves," by Reginald De Roven and "Where Song is Sweet," by Gertrude Sans Souci, with Mrs. Robson at the piano.

The business session was unusually interesting. The treasurer, Miss Jessie Levins, gave the complete financial report for the year, which was very gratifying.

Eight applicants for membership were voted upon and unanimously elected, and two other names were proposed, which is most encouraging.

The president reported the county federation meeting held last Friday. The committee in charge for the afternoon were Mrs. Parrott and Mrs. Stray.

The program scheduled for Oct. 15 has been postponed to some later date and an announcement will be made next week of the topic for that date.

STAGE INDOOR PICNIC

A group of families who have enjoyed a number of picnics of various kinds gathered at the home of Mr. and Mrs. D. H. Cramer Saturday evening for an indoor feast. The affair was held in honor of Harold Junior's birthday, which was the following day, and as a farewell before his departure to Stanford, which occurred this week.

Following a sumptuous supper, a song fest was enjoyed by part of the company, while others passed the time at bridge.

P. T. A. RECEPTION WELL ATTENDED

The reception by the Parent Teacher Association for the teachers' last Friday evening in the high school annex was well attended and all had a very enjoyable time.

The meeting opened with the singing of America, after which Mrs. Hedegard, president of the association, bade all welcome. She outlined the plans of the association for the year, the main objective of which will be service and cooperation between parents and teachers.

The teachers were then introduced and each was asked to tell what subjects they teach.

The class advisors were asked in what way P. T. A. could best help.

Miss Bosch, the senior advisor, said social help and good speakers who could interest the students in higher education. Mr. Noddin, advisor of the Juniors, also stressed social activity and cooperation of parents to help students select their objectives.

Mr. Best, sophomore advisor, asked parents to come to all social doings, such as picnics, class parties and athletic games.

Mr. Cutting, freshmen advisor, was of the same opinion as Mr. Best, that if parents would join in the social and athletic activities while freshmen, both parent and student would find it easier to work together all through high school.

Mrs. Hart, the sixth district president from Mountain View, talked on P. T. A. activity and what a great organization it is, naming the various branches, first the local associations, then the councils, the districts, the state and national.

The assembly listened to a very interesting travelogue, given by Miss Howes and Miss Thomas on their vacation, spent in Europe.

ONE HOSS SHAY UP TO DATE

Mr. and Mrs. George Parso have recently purchased a new Hupmobile sedan and they went to San Jose Saturday to get it. They started out in their Dodge, which has given them splendid service for years. When they reached a spot near the county hospital the Dodge stopped short and no amount of coaxing would make it start again. One might almost think that the old machine had yielded to the green-eyed monster or that it realized that its "nose was out of joint," like a child in a home in which a new baby has arrived. Anyway, it refused absolutely to have anything to do with bringing a new car home to occupy the place where it had reigned supreme for so long. Mr. and Mrs. Parso continued their journey to San Jose by stage and when they returned with the new "Hup," they found the old Dodge still sulking right where they had left it, so they towed it home, which must have seemed to the old car like adding insult to injury.

PAVING PROJECT NEAR COMPLETION

The paving of South Central and Railroad avenues is rapidly progressing during the ideal weather conditions and if the rain will hold off a few days more the job will be completed.

What with Winchester avenue, Union avenue and this job, our section has been favored with work for which the community thanks Supervisor McKinnon.

Other work is being planned for this section of the fourth district, but will probably not be begun this fall.

KIWANIS LEARN HOW TO WATER STOCK

The Kiwanis Club Tuesday was in the hands of two famous jay-hawkers, or food hawkers, if you will. But what of it. The program was well enjoyed, thanks to Carl Field and Ira Abbott. While Carl with his mace kept the crowd subdued by fair means or foul, Ira gave some of the inside secrets of how to run a lunch and soft drink emporium and make big money. He stated that the best profit was from coffee (all watered stock). He told a very interesting story of the old pioneer road over the Sierra by Myer summit, where he conducted his summer store. This is a historic section of California immigrant days, when the gold of Virginia City, Nevada, was hauled through to Sacramento. It is one of the most scenic routes in the state and from its high elevation can be seen distant points of interest. The club members were almost convinced that there was the place to convene next summer.

CONGESTION AT SCHOOL EXPLAINED

Owing to a misunderstanding having arisen relative to the crowded conditions in the grammar school, with respect to pupils from out of the district being admitted, the matter was fully discussed at a regular meeting of the trustees on Wednesday night and the following information is given for the benefit of those interested. There exists at the present time, a crowded condition in certain rooms, due to the normal increase in attendance, and in these particular rooms, the entire enrollment is comprised of pupils in this grammar school district. There are at the present time about 50 pupils from outside the district attending the grammar school and these 50 are so divided that no room has over three or four additional pupils on account of their attendance. Thus it so happens that the number of outside pupils does not in any way effect the actual crowded condition as it now exists.

GRAMMAR SCHOOL P. T. A. MEETS

The first meeting of the Campbell union grammar school P. T. A. was held in the school Tuesday afternoon. Many mothers were in attendance and many activities for the year were discussed. It was voted to have "child welfare" as the project, and the teachers were invited to bring to the attention of the P. T. A. any needy cases they may observe in their class rooms.

A very interesting report was given by Mrs. Norman Barrett, the school nurse, also an instructive talk on "state aid for crippled children," by Mrs. Gould of San Jose. Much discussion was given the membership drive to begin immediately. A report was given of the preparations being made for the reception to be given the teachers of the school on Friday evening, Oct. 5. After the business meeting a social hour was held in the cafeteria, where refreshments were served, the officers of the club being in charge.

RUTH MATTESON A STAGE SUCCESS

Miss Ruth Matteson, daughter of Mr. and Mrs. F. A. Matteson of Los Gatos highway, has recently been accorded high honors in the

NOVEMBER PROGRAM OF COUNTY FORUM

The Santa Clara County Forum announces its program for the month of November as follows:

Its regular meetings for the season of 1928-29 will begin Nov. 11. They will be held in the auditorium of the San Jose senior high school, 6th and San Fernando Sts., at 2:30 p. m. each Sunday. They will be opened by a musical program and all addresses will be broadcast over KQW. The speakers will be:

Sunday Nov 11, 2:30 p. m.—Robert G. Sproul, vice-president, comptroller and secretary of the board of regents of the University of California. Subject: "Do the people care?"

Sunday, Nov 18, 2:30 p. m.—Robert G. Aitken, director Lick observatory, Mount Hamilton. Subject: "The unity of the universe."

Sunday, Nov 25, 2:30 p. m.—Ng Poon Chew, editor of "The Chinese World," San Francisco. Subject: "China, and the newest birth of the oldest world."

The Forum also announces the regular weekly meetings of the Discussion Club under the auspices of the San Jose evening school, which meets each Tuesday at 7:30 p. m. and adjourns at 9 p. m. in the conference room of the San Jose senior high school, 6th and Fernando Sts.

These Discussion Club meetings are held under the direction of Walter Thomas Mills. There are no long speeches; everyone is welcomed; there will be no fees nor collections, and all will have a share in the discussion right from the start. The subject this Tuesday will be "What is a city?"

Last Tuesday every seat was occupied with some standing. Both the facts and the arguments based on the facts are worked out on the blackboard, with everybody doing the thinking and suggesting what shall be written next.

Throughout the year the topics discussed in the Santa Clara Forum will be reviewed in these Discussion Clubs.

It is hoped that, especially in this county as well as throughout the west coast, those who attend the Forum meetings, or who "listen in" over the radio will form such discussion clubs.

REGISTER NOW FOR THE FALL ELECTION

Two days more to register for the presidential election—today and tomorrow. Campbell is in the good citizenship campaign for high percentage of voting in California and we all want to make a good showing.

Good citizenship is not only a privilege, it is a first duty, and one of the best ways to indicate an interest in the welfare of the state and country is to cast one's ballot for the representatives, whoever they are, that stand for the principles in which you believe.

Also there are at this time twenty-one amendments, largely referendum, upon which the voters are to express their wishes.

Be sure you are registered, and in case of change of residence, see that the change in precinct is made on the register.

dramatic field. Not long ago she went to San Francisco and was given a small part with the Henry Dwy Players, but a few days ago one of the company left and Miss Matteson was given the second lead in "Daddies," a David Belasco comedy, now in its fourth week at the President theatre.

Miss Matteson's rapid advancement in her chosen field is gratifying to her family and friends, who hope to see her attain a high position on the legitimate stage.

Golden State News of Interest to All

Fire losses in State-protected forest, grain and grazing areas total \$1,030,000 for this year, State Forester M. B. Pratt announced a few days ago. Considering a total of 1,261 fires, Pratt said the greatest damage has resulted in grain lands. The total grain field loss has been \$578,057.35. Timber damage, thus far, has been held down to \$32,086.75.

Hearings on the 1929-31 budget will commence on October 1, according to the announcement of A. R. Heron, director of the State Department of Finance. Preliminary estimates indicate that the total amount recommended for State expenses will be slightly higher than during the current biennium, Heron said.

Industrial employment was 2 per cent greater in August than in the same month last year. Total payrolls showed a 6.8 per cent increase and average weekly earnings were 4.7 per cent larger. Thousands of non-reporting outdoor workers continue to be employed in harvesting large crops and in getting them ready for market, according to the Wells Fargo Bank & Union Trust company of San Francisco.

Save California beaches—preserve California's redwoods. With this plea for the \$6,000,000 park bonds which will come up for public approval in the November election, Senator Arthur H. Breed last week predicted victory for the State Park Bonds Act. Senator Breed, president of the State Senate and author of the act, declared that the public would soon lose the use of beaches and forests, now being absorbed by private capital, unless the bonds were passed.

With organized labor behind the movement, Frank G. Snook, chief of the State Division of Motor Vehicles, announced recently that his department is drafting legislation for centralized State control of California traffic police. The State Federation of Labor passed a resolution at its convention in Sacramento endorsing the proposal to abolish the present "double-headed" system of State and County traffic officer control. At present the State motor vehicle chief appoints traffic officers for service in the various counties, but the County boards of supervisors prepare the list of eligible persons.

Gasoline tax revenues collected by the various States last year netted a total for the Nation of \$258,966,851. California, with the largest registration of any State collecting such a tax and with the highest ratio of cars per population in the Union, raised a greater amount of road revenues by this method than any other State. Motorists in California paid a total of \$22,467,083. Of the total collected in the Nation, \$132,095,503 was available for the construction and maintenance of State highways under the supervision of the State highway departments and \$55,440,161 was apportioned to counties for local road purposes and engineers at Oakland.

Contracts for two Superior California highway jobs were signed a few days ago by Bert B. Meek, State director of public works. One, let to J. P. Brennan of Redding, is for the construction of two reinforced concrete bridges across Valley and Indian Creeks, twenty-five and forty-two miles, respectively, west of Redding on the Weaverville lateral. The contract price is \$22,431.22. The other is for widening and surfacing with bituminous macadam of 2.1 miles between Sheridan and the northerly boundary of Placer county, awarded to E. F. Hilliard of Sacramento on a bid of \$13,594.

Arrests of 600 narcotic law violators have been made by State, city and county officers in the California campaign against the "dope" traffic since the first of this year, State Narcotic Director Frank H. Benson announced recently. Most of those apprehended have received jail sentences, Benson said, and sixty of them have been given terms in the State penitentiary.

James Boyer, one of the directors of the East Bay Municipal Utilities District, announced last week that the Lafayette dam, work on which was stopped recently when the center section fell, will have to be entirely reconstructed. The announcement followed a conference between directors.

Every California's ballot will be worth exactly \$10, collectable at the polls, if Senator-elect Frank Merriam of Long Beach is successful in securing adoption of a measure which he will propose at the January legislative session. The Merriam act, a compulsory voting measure, would fix a \$10 poll tax on all Californians, with the proviso however, that payment be waived when the individual registers and votes at all elections. If this measure cannot be passed, Merriam said, he would support Governor Young's plan for compulsory registration of voters.

California Ranch News

Los Angeles county has greater dairy production than any other county in California. Next, in order, are Merced, Stanislaus, Tulare, San Joaquin and Humboldt counties.

The value of California fruit crops is so great that average people seldom think of the State as an important producer of wool and mutton. Yet Texas is now the only State outranking California in the estimated number of sheep and owing to a higher value per head, the total value of all sheep and lambs on farms and ranges in California is nearly one million dollars greater than in Texas.

California dairy sows have a total value of nearly \$50,000,000, it was announced recently by the State Department of Agriculture. A survey by the department shows that milk cows at present have a market value per head almost double that of other cattle.

The 1928 production of California pears was estimated to be 220,000 tons on September 1, compared with the 1927 harvest of 181,000 tons. Early shipments of fresh Bartlett brought low prices because of strong competition from the Georgia peach crop, the heaviest in history.

The harvest of almonds, now in full swing, is expected to equal last year's total tonnage, although there is considerable variation among the 75 individual grades. The condition of the crop is excellent, demand is steadily growing and the total sales value is expected to be about \$5,000,000, appreciably more than last year.

Production estimates of California prunes have been reduced to about 185,000 tons, compared with 203,000 tons last year. Although sizes are running small in some districts, price returns have been good, as carry-over from last year was light and crops in other places have been much smaller than in previous years, according to the Wells Fargo Bank & Union Trust company of San Francisco.

Every dairy farmer in California should write to the College of Agriculture at Berkeley for Circular 21, which contains a great amount of information which will be helpful in the continual effort to keep the herds free from Bovine Tuberculosis. This circular, just off the press, is written by Doctors C. M. Harling and J. Traub, professor of Veterinary Science and associate professor, respectively.

The total peach crop on September 1 was forecast at 609,000 tons, compared with last year's production of 492,000 tons. Clingstone peaches (the canning variety) are expected to yield 395,000 tons, compared with 322,000 tons in 1927. At the opening of the canning season, packers agreed to pay growers \$25,000 a ton for first-grade cling peaches, provided not more than 13,000,000 cases were packed. To September 8 about 13,886,000 cases of first-grade fruit, mostly, had been packed, with indications of a more than 14,000,000-case total. Final agreement as to the price to growers under these conditions will not be reached until the pack has been completed and market possibilities determined.

A world's record non-stop official tractor run was completed last week when Professor H. B. Walker of the division of agricultural engineering of the college of agriculture pulled the switch which stopped the motor after 408 hours of gruelling day and night labor at difficult farm work. The test was held on the Hastings Ranch of the California Packing Corporation near Rio Vista. The agricultural engineering division of the college of agriculture has been working for a number of years on various phases of tractor power, particularly those factors affecting the reliability and durability of farm tractors.

On September 1 the 1928-29 California Navel orange crop, shipments of which will begin on November 1, was estimated at 16,000,000 boxes, an exceptionally large yield and compared with the 1927-28 harvest of 11,650,000 boxes. The 1928 Valencia orange crop, exact figures for which will not be available until November 1, when shipments cease, was estimated on September 1 to be 9,250,000 boxes, compared with 11,640,000 in 1927, reports the Wells Fargo Bank & Union Trust company of San Francisco.

Last year's large California rice crop of 8,960,000 bushels, with heavy production elsewhere, sent prices down to unremunerative levels. Since the first of the year fancy rice prices ranged from 20 per cent to 25 per cent lower than in 1927. Accordingly, growers cut the acreage planted from 160,000 in 1927 to 136,000 this year. September 1 condition of the crop indicates a yield of 6,773,000 bushels, about 24 per cent less than last year, according to the Wells Fargo Bank & Union Trust company of San Francisco.

The cow testing association at Ferndale in Humboldt county, has been in continuous operation longer than any other in the United States.

Dried apricot production will be about the same as last year's heavy output, between 19,000 and 20,000 tons. Returns to growers have been about equal to last year.

California produces annually evaporated whole milk worth \$15,000,000. During 1927, the manufactured value of dairy products in California was \$153,885,760.

One hundred and fifty tons of raisins have been dehydrated at the Delhi dehydrator this season. All these dehydrated grapes are booked for Europe—Germany, France and England.

Governor C. C. Young has announced the re-appointment of Sam H. Greene, as director of the California State Board of Agriculture, which is the governing body of the State Fair, held annually in Sacramento. This is Mr. Greene's second term of office. He is director in charge of manufactures, machinery and dairy building.

Only minor changes in the California dairy laws are necessary or desirable at this time, according to resolutions adopted at a conference in Sacramento attended by more than 200 persons representing various dairy organizations, women's clubs, health and enforcement departments and other interested groups.

Revision of the State law to permit the shipping of green fruit to foreign markets was advocated at Los Angeles a few days ago by Rene A. May, San Francisco importer, speaking before the Pacific Foreign Trade Convention. At present the same laws govern the shipment of fruit to domestic and foreign markets. This would take care of over-production, he said.

The California cotton crop outlook, while not as good as a month ago, is still favorable; on September 1 the estimated condition of the crop was 87 per cent of normal, compared with 90 per cent on August 1, indicating a total production of 149,000 bales, compared with a 157,000-bale yield estimated a month ago and 1927 production of 180,590 bales. This lowered condition prevails mostly in those irrigation areas where an insufficient head of water was available; insect damage has been slight.

California vineyardists must ship only the finest quality grapes if they want to find a ready market in the east. That, substantially, was the warning issued to California grape growers a few days ago by G. H. Hecke, director of the California Department of agriculture. Uniform packing and careful weighing were two of the points which he stressed in his statement. Receivers throughout the entire east know that there is a large crop of grapes in this State, and they are very much concerned as to how the growers and shippers are going to handle this volume, he pointed out.

Battle to maintain the rightful heritage of 3,000,000 California children—milk from tuberculosis free cows—is impending with the State marshalling its forces for the greatest animal health drive in history. Based on proposals made two months ago for a program of tuberculosis eradication with the State, county and federal governments meeting three-fourths the value of infected animals to be condemned, the administration now is preparing legislation for submission to the 1929 law making body which

eventually is expected to make California foremost of all States in producing safe milk and beef from animals not infected with disease.

After a lapse of forty-two years in Marysville, the California State Grange, of which Yuba county has two branches, recently instituted, will hold the fifty-sixth annual session in Marysville, beginning October 16th. The proceedings are expected to last four days. The California State Grange is the only fraternal organization of farmers in the world. George R. Harrison of Sebastopol, master, was in Marysville last week making arrangements for the 1928 meeting, which will be held in Memorial Auditorium.

Odd Fellows Hall, Campbell. Branch of Upper Room Mission, San Jose. Services: Monday, 7:45 P. M. Bible study; Friday, 3:15 P. M. children's church; Saturday, 8 P. M., special evangelistic services. We give you a hearty invitation to all services. Come.

Sells B-H Satin Eggshell and Brush Lacquer

The B-H Color Harmony Selector makes choosing of colors simple and sure. The Selector is made from actual samples of paint and lacquer.

A new, easy way to Colorful Rooms!

THAT bright colorful kitchen you've been wanting—the kitchen of your dreams; that bathroom, alive and inviting with modern color effects; that new color-dress for the bedroom!

Have them now! There is a new, easy way for you to be your own decorator—a way that makes redecorating a new joyous experience—a way that costs but little!

The B-H Color Harmony Selector, shown above, automatically chooses charming color schemes for you. It selects these combinations from the 12 modish and beautiful tints of SATIN EGGSHELL FINISH for walls and woodwork (orchid, lettuce green, beige and others), and 12 sparkling colors of B-H Brush Lacquer for furniture and other objects. These are arranged on the Selector according to the laws of color harmony.

Then comes putting on the colors. Any woman can do it and have lots of fun at it when she uses

SATIN EGGSHELL FINISH. The results will be beyond her hopes because SATIN EGGSHELL gives a semi-gloss surface of great beauty and durability. And it is really washable.

Send 10c and your name to Bass-Hueter. They will send you a Color Harmony Selector, made from actual paint samples, and Betty Holmes' helpful booklet showing charming color schemes for your home. Then see us for your paints.

1. After Herbert Hoover's father died in Iowa, the three children went to live at Uncle Benajah's farm nearby.

2. Here Herbert had his share of the housework, which included this important engineering job.

3. The children's playhouse was the farm attic, where they read Youth's Companion and Robinson Crusoe.

4. First prize always went to Herbert when the children played circus with Uncle Benajah's old white mare.

Town Tales Tersely Told

Mrs. Mary Beardsley enjoyed a pleasant visit with friends in San Francisco over the week-end.

C. H. Whitman will put on the 4th nationally advertised Winchester sale as a member of the Winchester Hardware Stores Sept 27th to Oct. 6th. See windows for display.

Walter Farr, M. D., oldest son of Rev. F. C. Farr, has issued announcements stating that he has opened medical offices in Salinas. The many friends here of the young man and his family extend the best of wishes for his success, professional and financial, in his chosen field.

Think of Shadle's for cameras and developing.

Mrs. Lulu Steele and son, Thomas Steele, who had resided in Campbell for the past year, living in the Dr. Stallman house on Campbell Ave., moved into San Jose this week to make their home. Miss Violet Otterman, who had a room at their house, has also gone to San Jose to live.

J. H. Stubbe of Palo Alto was a busy visitor in Campbell Tuesday. At the Kiwanis luncheon he met a number of his old friends.

Windsor Cutting and Bernard Robson enjoyed a camping trip to Mount Whitney last week as a final good-bye vacation before beginning the years' grind at Stanford, where they both registered this week.

Think of Shadle's for prescriptions.

Katherine Spaulding, of Los Angeles, granddaughter of Mrs. E. R. Smith, was here Sunday and later was taken to Palo Alto by Gordon Smith, where she enrolled at Stanford this week.

BORN

To Mrs. Marie Parazzo and the late Hubert Parazzo, Sept. 26, a daughter.

John J. Gomez, local barber, wishes to announce to the public of Campbell and community that he is now ready to serve his patrons, new and old, at his new location on the southeast corner of Central and Campbell avenues.

J. E. Gamo was quite ill the first of the week, but was able to be out again Wednesday, although feeling far from well.

Mrs. Belle Abernethy of Portland, Ore., has been visiting in-law, Mrs. M. B. Jenkins.

Just like having your Telephone....
brought
.....to you

AN extension telephone is like having your telephone brought to you.

A telephone in the kitchen saves time and steps for market calls. A telephone in the bedroom adds that feeling of comfort and safety

for night calls. No finer expression of thoughtfulness than having a telephone in the guest room.

Why delay when you can have one or more of these servants of convenience in your house at additional wages of only a few cents a day?

Simply call our Business Office and say, "I want an extension telephone."

A very great factor in the continued progress and improvement of telephone service is the intangible but quite real spirit of service that has become a tradition in the telephone business.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

GIVES HOUSE- WARMING PARTY

Mr. and Mrs. George Parso who have recently moved to their west ranch on Hamilton Ave., were given a delightful "house-warming" party last Friday by a number of their friends, most of whom were former residents of the Gopher State. The evening was spent in playing progressive whist at six tables and at the close of the game delicious refreshments were served. Instead of the usual floral decorations, baskets of grapes and apples were used most effectively on the tables at which the lunch was served.

Mrs. Elizabeth Duncan accompanied her son John to Bolinas the first of the week on his return from a visit home. He is connected with the government's radio station at that point.

Mr. and Mrs. John Breeding (nee Ella Gilson) are receiving congratulations on the birth of a son, Sunday, Sept. 30, at O'Connor sanitarium. The youngster is a husky lad, weighing nine pounds.

Mrs. Ethel Ray is here from Bethany, visiting her mother, Mrs. Hattie Dunham, and sister, Mrs. Jack Scott.

S. G. Rice, who has had several sick spells recently, is again ill and under the care of his physician.

Wm. Penhall has been ill for several days and confined to his home.

NOTICE OF TRUSTEE'S SALE OF REAL ESTATE

Default having been made in the payment of the indebtedness secured by and in the performance of the covenants contained in that certain deed of trust dated the 18th day of December, 1926, made, executed and delivered by JOHN BUZOLICH and MINNIE BUZOLICH, his wife, as Trustees, to CALIFORNIA PACIFIC TITLE & TRUST COMPANY, a corporation, as Trustee for BANK OF SAN JOSE, a corporation, as Beneficiary, which said deed of trust was recorded in the office of the County Recorder of the County of Santa Clara, State of California, on the 20th day of December, 1926, in Volume 289 of Official Records, at page 194, et seq. Records of Santa Clara County, California that by an instrument in writing recorded March 29th, 1927 in Book 313 of Official Records, at page 32, et seq. in the office of the County Recorder of the County of Santa Clara, BANK OF SAN JOSE conveyed all of its right, title and interest in and to the said deed of trust and the debt which it secures to the BANK OF ITALY NATIONAL TRUST AND SAVINGS ASSOCIATION, a National Banking Association that pursuant to the terms and conditions of said deed of trust, said BANK OF ITALY NATIONAL TRUST AND SAVINGS ASSOCIATION, by an instrument in writing, discharged CALIFORNIA PACIFIC TITLE & TRUST COMPANY as Trustee under said deed of trust and appointed the NATIONAL BANKITALY COMPANY, a corporation, as the new Trustee to act for and instead of CALIFORNIA PACIFIC TITLE & TRUST COMPANY, a corporation, which instrument was dated May 25, 1927, and Recorded June 6, 1927 in Book 322 of Official Records, at page 525, et seq. in the office of the County Recorder of the County of Santa Clara, California.

The lawful owner and holder of said note and deed of trust having applied to and directed the said trustee in writing to execute the trust by said deed of trust created, and to make sale pursuant thereto, and notice of breach by the trustees of said obligation having been recorded by the lawful owner and holder of said note and deed of trust, as is provided for by law, and more than three months having elapsed since the said recordation, and said trustee deeming it best to sell said premises and estate as a whole now remaining subject to the said deed of trust in order to fulfill the purposes thereof:

Notice is hereby given that on Monday, the 22nd day of October, 1928, at the hour of 10 o'clock A. M., thereof, at the front door of the County Court House in the County of Santa Clara, State of California, the NATIONAL BANKITALY COMPANY, a corporation, trustee, will, under and pursuant to the aforesaid deed of trust, sell at public auction to the highest bidder for cash in United States Gold Coin, the following described real property mentioned in said deed of trust, situated in the County of Santa Clara, State of California, and more particularly described as follows, to-wit:

Beginning at a 2 inch pipe driven at the Northeast corner of the South half of the southwest quarter of Section 23, Township 7 South Range 1 West, M. D. M.; and running thence along the East line of said South half of the southwest quarter of said Section 23 and along the east line of the North half of the Northwest quarter of Section 26, Township 7 South, Range 1 West, South 0 degrees 1 minute West 20.14% chs. to a stake marked 11 standing in the center line at the eastern end of a road 40 feet wide called Dutard Avenue; thence along the center line of said road as defined by two rows of palm trees, North 89 degrees 44 minutes West 19.906 chs. to an underground monument 10" x 10" x 10" from which a 4" x 4" painted post marked W. P. and standing in the North line of said road bears North 0 degrees 3 minutes East 20 feet; thence leaving said road and running along the center line between two rows of fruit trees, North 0 degrees 3 minutes East 20.15% chs. to a 4" x 4" painted post marked 1-2

METHODIST CHURCH

Sunday, Oct. 7th—Morning worship at 1:00 with sermon by

"The supremacy of the common good."

At 7:30 p. m.: Specially arranged service as a commencement of this season's scouting. All parents are asked to attend. Cubs, Scouts and Sea Scouts will be expected to be present in full uniform. Scouts to assemble at 7. Speaker, Mr. Harrison White, Scout executive, San Jose, who will give the boys an interesting talk on his trip back east, mentioning his experiences in the terrible hurricane. Dr. W. I. Merrill will preside.

Scouts

Successful meetings are being held. Mr. W. H. Stray gave the boys the camp fire talk. This feature will close the meetings each Tuesday. All parents are asked to cooperate with Mr. Bennett as to the progress and welfare of the boys. Dick Knappen and John Hummel are now assisting with the boys.

pastor—topic "The Permanent Christ." Special music by Mrs. Howes.

Epworth League meeting for special council at 5 p. m. All leagues urged to come. Devotional topic at 6:30.

At 7:30, half hour of gospel music with solo number by Robert Kennedy. Pastor's topic—"Miracles of Grace." This is a second sermon in a series of four.

Come and hear.

Wednesday, 7:30—Fellowship, study, prayer. We cordially invite all Christian people to join us in prayer and preparation for our evangelistic services beginning Oct. 24.

Bring a special offering Sunday for the stricken churches in Porto Rico and Florida. An extra dollar will put heart into these sadly hurt people.

Straight Insurance for Farmers in Their Own Company

The lower risk (traffic hazard) of rural communities and each policy holder being a member of the company accounts for much of our saving in costs.

Then all Farmer's Automobile Inter-Insurance Exchange policies are simple and understandable. We have no Limited Clauses, no Deduction Clauses—a policy plainly worded with no coined phrases or hidden meanings—a policy that insures and does not disappoint.

Our agents are men of integrity, men to whom you can with confidence tell and discuss your insurance problems on a plain, business basis. Much of the remarkable success of this organization has come from the realization by California farmers that they can economically and to their own profit be their own insurance company.

Regardless of when your present policy expires, plan now to renew it in your own company.

Property owners in Campbell, Los Gatos are eligible for this insurance.

—Harry Barnes, Agt., Phone Campbell 22-F-5.

is so reliable.

Do you still go
to the pump
for water?

—nor should you be without an extension telephone in your home.

The speed of modern business demands a sufficient number of telephones conveniently located to save steps and time.

In the world's most universal business—home making—extension telephones are now regarded among such modern conveniences as running water and electric lights.

Simply call our Business Office today!—and say, "I want an extension telephone."

BEHIND THE SCENES

You will be interested to see the quiet efficiency of a modern telephone exchange. We invite you, individually or in groups. Our Business Office will gladly arrange to show you through.

Good heating and fuel economy

come only with heating equipment carefully planned and installed

Picture shows how floor-furnace sets in floor. Heat is controlled by handy valve.

You know how homes differ in their size and the type of building materials used. There is 10% less heat loss through plaster and board walls as through brick walls. And there is 25% less heat loss through insulated walls. These are some of the facts our staff considers before recommending a heating system. For after all, a furnace must keep your home warm no matter how your home is built.

Only trained engineers can weigh such facts and fit the proper heating equipment to each home.

There is no obligation if you have one of our men look over your home. The facts he finds will be taken back for careful consideration by our staff. Then you'll know the recommendations they make will be good. As we will always be in business we can only afford to recommend good gas heating equipment to our customers. And that is one reason why all our recommendations are carefully made. Another reason is, this company knows by years of carefully kept records, that good heating and fuel economy come only with heating equipment carefully planned and installed.

A postcard or phone call will bring a heating expert to your home.
